

The Wave

The Wave is designed with much thought to its open floorplan and view oriented layout. This floorplan provides casual living while creating a functional space for hosting guests with the kitchen, dining, great room, and outdoor living all in the same area. The oversized pantry is sure to impress any host! The second floor is home to the guest bedrooms and the third floor is a private retreat dedicated to the master suite. Key features of the wave include an elevator, two laundry rooms, a wine display, a family or game room, and outdoor living on all three levels.
